# SHORTHORN HISTORY

The Shorthorn Breed of cattle originated on the northeastern coast of England in the counties of Northumberland, Durham, York and Lincoln. The first real development of the breed occurred in the valley of the Tees River about 1600. The large-framed cattle that inhabited this fertile valley became known as the Teeswater cattle.

The breed later spread to Scotland and then to America in 1783. When first brought to Virginia, the breed had attained the name Durham. It was the first improved breed to be imported here and the qualities the animals possessed put them in great demand, rapidly spreading their influence across America.

Shorthorns were popular with America's early settlers. They valued this breed for meat and milk and found Shorthorns a willing power for the wagon and plow as well. The breed followed, sometimes pulling pioneer wagons across the Great Plains and into the far west.

In 1834, Felix Renick of Chillicothe made the first major importation of Shorthorns to Ohio. On October 29, 1836, he held the first Shorthorn auction in America. The cattle sold for huge amounts ranging from \$400 to \$2,225. A monument was erected to mark this historical milestone.

The Shorthorn breed is the oldest American breed organization in existence today. Shorthorns and Polled Shorthorns are registered in the same Herd Book. Over 45 other breeds of cattle show traces of Shorthorn / Polled Shorthorn in their parentage, including Belgian Blue, Santa Gertrudis, Angus, Red Angus, Charolais, Gelbvieh, Beefmaster, Maine-Anjou and Milking Shorthorns.

The breed has been a part of many "firsts". The first registry for any breed of beef cattle was Coates Herd Book in 1822. The American Shorthorn Herd Book was the first of any breed to be published in the U.S. and was started in 1846. The first breed organization in America was the American Shorthorn Breeders Association which was founded in 1872. The first major breed to be developed in the U.S. was Polled Shorthorns, originating in Minnesota in 1881.

Shorthorns are the world's most numerous beef breed, but their numbers in North America do not reflect their world popularity. They are considered to be the most docile, easily-handled beef animals in the world.

Shorthorns have long been known for their maternal traits, milking ability and calving ease. Now the breed is excelling in growth and carcass traits, possessing the ability to produce a choice carcass while maintaining leanness.

These honorees are persons that have shown exceptional passion and can be given credit to helping with the long-term success of the Shorthorn breed in the state of Ohio. A Lifetime Achievement Award winner is a true Shorthorn enthusiast who has positively impacted the Shorthorn breed and the members of the Ohio Shorthorn Breeders Association.

### 2025 WINNER: RON RUTTAN

Ron Ruttan has lived a life with cattle and Shorthorn cattle have been with him from the start. His grandparents had Shorthorns in the 1890's and his parents followed from there being active in local sales and very involved with the Preble County Shorthorn Breeders Association in the 1950's and 60's. Ron and his two sisters exhibited the family calves in 4-H in the mid 50's to early 60's. After high school Ron served in the National Guard and farmed with his parents. In the mid 70's he moved to Tyler, Texas and worked delivering rose bushes to many states which led to starting a custom fitting service clipping cattle for sales and exhibiting at National shows.

Ron returned home to Preble County in the mid 80's to gather some cattle of his own and establish Ruttan Fence and Construction concentrating on agricultural fencing that still operates on a daily basis. While building fence during the week he started doing custom hoof trimming on the weekends. That led to meeting and starting a partnership with Christy Campbell. Together in 1991 they formed RC Show Cattle and today run 40+ brood cows being Shorthorn, Angus and club calf genetics. To jump start the shorthorn sector of their breeding program, CF Nasdaq was purchased with the Nolen family and that led to breeding and exhibiting bulls such as Dirk Diggler, Moose, Solid Gold, Damn Proud and Proud Freckles.

Marketing the calves led to the start of the Annual Early Bird Sale which has now grown to having 3 sales a year. Exhibiting at Louisville and Denver year after year helped Ron receive the 2018 Herdsman of the Year, the 2019 Jack Ragsdale - NAILE show honoree and 2020 Builder of the Breed. Ron continues to drive posts, halter break calves and custom hoof trim which he enjoys visiting with the families that come from near and far, plus they bring homemade chocolate chip cookies, they are "in like flint"!
